

DONSON

Excellence in Precision Machining

Alsip, Illinois

Orland Park, Illinois

Since 1978, Donson Machine has grown by investing in the best machining technology & expertise in the industry. Our goal is to consistently exceed customer expectations for service and quality. Registered to ISO 9001 and ISO 13485, we operate multi-shift production facilities in Alsip and Orland Park, Illinois. Donson is the preferred precision machining source for industry-leading OEM customers in Medical Equipment, Orthopedics, Industrial Automation and Aerospace.

The Latest in CNC Turning and Milling Technology

- ✦ Production and Prototype/Short-Run Capabilities for Components and Assemblies
- ✦ Exceptional Engineering, Technical Support and Quality Management Systems
- ✦ Real-Time Customer Service Communications
- ✦ Advanced ERP Systems and Master Scheduling

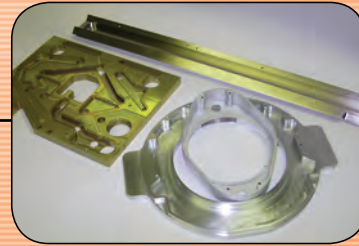

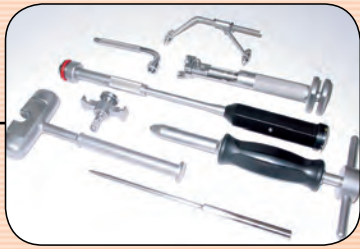

The Donson Difference...

- ✦ Versatility & Innovation
- ✦ Continuous Improvement
- ✦ Lean Manufacturing

High-Precision Machining for Medical & Industrial Applications

CNC Milling:

- ✦ Horizontal and Vertical Machining Centers with Pallet Changers (Mori-Seiki)
- ✦ Wire EDM (Mitsubishi)

CNC Turning:

- ✦ Twin Spindle and Swiss Turning Machine Tools
- ✦ 8 Axis Turning Centers with Live Milling Capabilities (Mori Seiki, Marubeni-Citizen Machines)
- ✦ 5th Axis Mill-Turn Machining Centers (Mori-Seiki)

In-House Secondary Operations and Finishing Capabilities:

- ✦ Mass Finishing and Polishing
- ✦ Passivation (Nitric and Citric)
- ✦ Laser Marking, Epoxy Ink Marking, Metal Stamping

Advanced Quality Systems:

- ✦ Automated CMM and Laser/Optical Vision Inspection Systems
- ✦ Full Certification, Documentation and Validation

Precision Machining With Exceptional Customer Care...
